This week on Purple Mash...

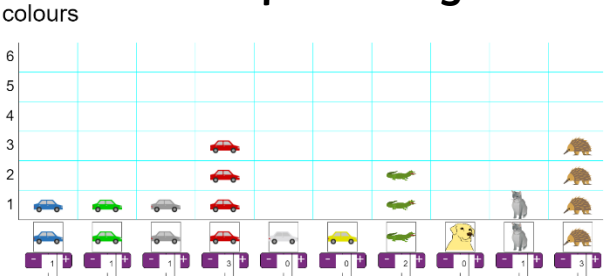

Don't worry help is on the way. I am coming to save you.

Keep your lifejacket on at all times!

Graphs using 2 Count

Lifeboat Crew and Nature Presenters using Mashcam

It is a polar bear it looks like a saber tooth tiger and lives in the snow like the saber tooth tiger.

A polar bear will eat penguins seals fish and need to eat a lot.

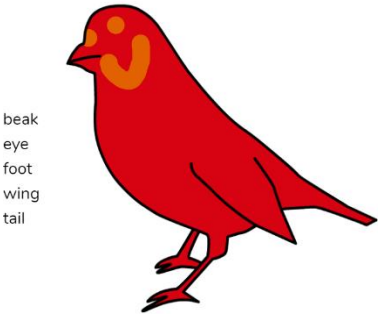

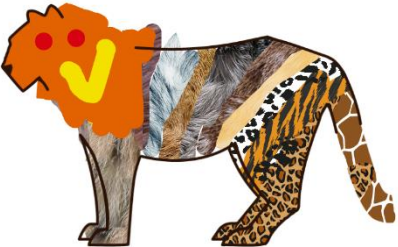

The polar bear can survive cold weather. They like to eat seals and fish. They have lots of thick fur.
